Grants for Advanced Studies in Special Education

Recognizing the chronic and pervasive shortage of special education teachers, CCSE has established this financial assistance program for those pursuing advanced degrees in special education

Technical Assistance to Schools

Numerous schools supported

Share the Word Campaign

Opening Hearts – Opening Minds – Opening Doors

This campaign raises disability awareness among administrators, department chairs, faculty, members of the board of trustees, parents, student council and student body through specifically targeted school and parish programs to include renowned speakers and special guests from the special education and Catholic community, as well as presentations by CCSE representatives. Educating the entire community is essential to removing barriers created by fears, biases and myths. This ensures that everyone understands the importance of welcoming students with disabilities and is a key factor in the success of programs serving our brothers and sisters with special needs.

CCSE is a charitable non-profit 501(c)3 corporation
Contributions are deductible as allowed by law

www.ccse-maryland.org

The mission of the Catholic Coalition for Special Education is to ensure that children with special needs are able to attend and receive an appropriate education in their local Catholic elementary schools and high schools. In the words of Pope Benedict XVI “no child should be denied his or her right to an education in faith, which in turn nurtures the soul of a nation.” CCSE provides grants and technical assistance to help Catholic schools in Washington, D.C. and Maryland achieve this goal.
